

Dental And Orthodontic Clinic

We started In 2009. The team has expanded over a period of time and presently comprises 5 doctors to provide all kinds of preventive care and treatments for kids from infancy to adulthood. As many of our patients are growing and turning into adults and they still feel comfortable continuing their dental care with us, we are also expanding and incorporating the services to provide and deliver the services to them and their family members.

The team comprises 5 Speciality Doctors
